

Professional Conference Management System

Scenario

A professional training company manages conferences, seminars, and workshops across multiple venues in the UK. The organisation needs a database system to manage events, speakers, venues, sponsors, and attendee registrations.

The system should support:

- Managing organisations and conference providers
- Organising conferences and seminars
- Assigning speakers to sessions
- Managing venues and halls
- Tracking attendee registrations
- Recording sponsor information

Candidate Entities

- Organisation
- Conference
- Sponsor
- EventSession
- Venue
- Speaker
- Registration

Example Tables and Sample Data

Organisations

organisation_id	organisation_name	manager_name	contact_email
ORG001	TechSkills Academy	Sarah Ahmed	info@techskills.com
ORG002	FutureLearn Hub	Daniel Smith	contact@futurelearnhub.c

Conferences

conference_code	title	category	organisation_id
CONF101	Cloud Computing Bootcamp	Technology	ORG001
CONF102	Agile Project Management	Business	ORG002

Sponsors

sponsor_id	sponsor_name	address	contact_number
SP001	Innovate UK	London	0201234567
SP002	DataCore Ltd	Manchester	0161987654

EventSessions

session_id	session_date	session_time	hall	speaker_id
SES001	2026-07-10	10:00	Hall A	SPE001
SES002	2026-07-11	14:00	Hall B	SPE002

Venues

venue_id	venue_name	address	seating_capacity
VEN001	Manchester Conference Centre	Manchester	300
VEN002	London Tech Hall	London	500

Speakers

speaker_id	speaker_name	expertise	affiliated_organisation
SPE001	John Carter	Cloud Computing	TechSkills Academy
SPE002	Emily Brown	Agile Methodologies	FutureLearn Hub

Registrations

registration_id	attendee_name	attendee_email	session_id
REG001	Ali Hassan	ali@email.com	SES001
REG002	Maria Khan	maria@email.com	SES002

Example Relationships

- Organisation manages Conference
- Conference contains EventSession
- Speaker delivers EventSession
- Venue hosts EventSession
- Attendee registers for EventSession
- Sponsor supports Conference

Example Assumptions

1. Each conference belongs to one organisation.
2. Each session is delivered by one speaker.
3. A venue can host multiple sessions.
4. A participant can register for multiple sessions.
5. Each sponsor can support multiple conferences.

Example Scope Statement

In Scope

- Conference management
- Speaker management
- Session scheduling
- Registration tracking
- Venue management

Out of Scope

- Online payments
 - Accommodation booking
 - Transport management
 - Video streaming services
-
